A Report on Irrigation Surveys in the Western States.

Appropriations for Public Buildings and Sites in California.

The Tariff Hearing Developing Variety of Views-Plan for a National Military Park-National Notes.

By Telegraph to The Times. WASHINGTON, Jan. 10 .- By the Assoc ated Press. The discussion of the World's Fair Bill by the House Committee on Foreign Affairs has resulted in bringing for ward a proposition which, it is suggested, may aid in the selection of a site for the fair. The House committee has already decided that it will report a bill leaving blank the name of the city where the fair hall be held, but it is feared that if it goes into the House in that shape, and without some arrangement in advance to govern the method of the selection of a site, no agree ment can ever be reached. Under ordinary parliamentary rules, the probable course of proceedings in the House would be for some

member to move to insert the name of a site. Some other member would move to strike out that name and insert another. On To LET—AT 117 N. OLIVE ST., NEAR

To avoid this the sub-committee charged with consideration of the Fair Bill has taken a hint from the action of the Appropriation Committee in securing alternative action upon certain classes of District of Columbia appropriation bills, and inclines to report a special proposition, which will provide for repeated ballots in the House upon the question of naming a site for the fair, with an agreement that on each ballot the name of the city receiving the least number of voices be dropped, and in this way, it is believed, a conclusion can soon be reached.

The President's visitors this morning included the entire Chicago World's Fair delegation, headed by Senator Farweil.

THE IRRIGATION SURVEY.

Progress of the Work in the We WASHINGTON, Jan. 10,- By the

employed in those localities.

In California and Nevada section

In California and Nevada section parties have finished the work assigned to them. The topography of 250 square miles of Pyramid Peak sheet area in California, and Reno sheet area in Nevada, was completed. In Colorado a section of Trinidad area has been surveyed, comprising 150 square miles; also, Twin Buttes sheet and Springfield sheet are rapidly approaching completion. The total area surveyed in Idaho is 400 square miles.

The report of the hydrologic division was pursued only in California and the Rio Grande Valley, New Mexico. In California examinations were made of the segregation of irrigable lands in the Valley of Owens River. The hydrographical party inaugurated some experiments in California for gauging rivers by means of apparatus worked from the shore. A camp is being located on the Tuolumne River.

THE DUTY ON PRUNES. California Growers Ask Protection

for Their Industry.
Washington, Jan. 10.—[By the Associ ated Press.] The fruit-raisers were given a hearing before the Ways and Means Com-Hittes yesterday, when Congressman Clunie presented a petition from the fruit-grower

of the Santa Clara Valley asking that the duty on prunes be raised from 1 to 3 cents. Under the present duty, with existing freight rates, foreign producers can lay prunes down in the market of New York and other eastern cities at prices with which California producers cannot possibly com-pete; whereas, if the duty is raised as de-sired, the western growers can control all these markets.

A Small Caucus WASHINGTON, Jan. 10.—At a slimly-attended Democratic caucus this evening, the usual resolution was adopted for nam-

ine usual resolution was adopted for naming a compaign committee, namely, that each State or Territory having Democratic Representatives shall select one to represent it on the committee.

No formal method was provided for the selection of members of the committee from States whose delegations are solidly Republican, but the usual rule will be followed, allowing the committee to fill vacancies by election. Trotter's Fat Office Vacant.

WASHINGTON, Jan. 10.—The resignation of Trotter (colored), Recorder of Deeds for the District, has been received at the White House, upon a request made by the President. It is supposed a new appointment will be made shortly. Inquiry made by Senator Ingails has developed the fact that the office has paid \$40,000 in fees during Trotter's incumbercy of two years and ten mouths.—A bill—is pending in Congress to make the position a saturied one.

Appropriations for Buildings, WASHINGTON, Jan. 10.—The Committee on Public Buildings has decided to report favorably bills authorizing the purchase of sites for, or the construction of, public buildings in the following cities: San Francisco, \$500,000; San Diego and Oak-land, \$100,000 each.

BRICE IS BOLTED.

SOME DEMOCRATS WILL NOT SUPPORT HIM.

> Chance for a Tie and Deadlock in the Ohio Legislature-Death Reduces the Democratic Majority.

By Telegraph to The Times. COLUMBUS (O.), Jan. 10.—[By the Associated Press.] There have been severa rumors in circulation today relative to the proposed bolt of the caucus which last night sominated Calvin S. Brice for the Senate. There were 75 members of the caucus, and three did not appear. They are Smith of Franklib, Municulated Library and Counts of

caneus to vote for Brice, Brown of Haucock having sent a note that he would support the nominee. There are 71 Republicans. and if three alleged bolters join them, they would have the same number of votes as the

Democrats.
The claim is made that Brice will have to receive a m jority of all members elected to receive a m jority of all members elected to the Legislature, which would be 76. The Brice managers claim that the law only requires a majority of those present and voling. Representative Knapp died last night, and L wier is not expected to live through the night, which cuts the number of Demogratic members to 77, and the three alleged bolters still reduces the available strength to 74.

Сикласо, Jan. 10.—Murat Halstead was Interest of the second such power—now can the Democrats ever agaid poss before the country as the op-ponents of monopolists, trusts and grasp-ing millionaires? Brice is not an Onioan, and his admission to the Senate is simply giving New York three Sonators."

Haistead did not take stock in today's re-

port from Columbus that Brice would be elected in spite of the nomination.

THE CAISSON CALAMITY. More Bodies Recovered-Some On

LOUISVILLE, Jan. 10.—[By the Associated Press.] Early this morning the bodies of three of the unfortunate victims of the caisson accident were recovered. The positions in which they were found showed that a desperate struggle had taken place at the narrow door of the escape. Further investigation shows that the dispute with Portugal is settled.

It was decided to report to the Sexate a bill for the condemnation and purchase of the two squares of ground directly north of the site of the Congressional library and east of the Capitol grounds upon which to erect a suitable building for the Supreme Court. The committee also decided to recommend the passage of a bill appropriating \$30,000 for the erection of a statue of Columbus, to be unveiled in 1892. It is to stand where the peace monument is now located, at the foot of Capitol Hill, on Pennsylvania avenue, that monument to be transferred to a location yet to be selected.

In Memory of Kelley.

Washington, Jan. 10.—Draped in sember black and adorned with a simple bouquet of white flowers, the desk so long occupied by Mr. Kelley of Pennsylvania this morning, reminded members that "Father of the House" has departed from their midst.

Inmediately after reading of the journal, Mr. O'Neill of Pennsylvania announced the death of his colleague. Mr. Kelley, After paying a touching tribute to his memory, he offered resolutions that appropriate services be held in the House tomorrow noon, and that the usual committees be appointed to attend the funeral. After adopting the resolutions the House adjourned as a mark of respect.

BERLIN, Jan. 10.—[By Cable and Associated Press.] Mr. Phelps, United States Minister, made an address before the Marcian Society here this evening, in which he praised the patient pursuit of duty which characterized the German race in every capitage or present the second of the present of the duty which characterized the Corman lates in every rank from prince to peasant. He dwelt upon this trait, as revealed by Empress Augusta in the last audience he had with her. The labor of that audience was then evidently beyond her strength.

"One thing," he said, "especially struck me upon that occasion. Every tople seemed to lead her unconsciously to the same subject of the laye of peace which appeared to strangely fill and occupy her mind. Whether speaking of America's material and moral growth, or of France and the exposition, she always reverted to peace. Detecting a gleam of merriment on my face at this, she, in a winning, half-pettish tone, reproached me, adding, think what I know of war,' and murmured some-

ments Looked For.

All doubts as to the indictment of Carl Browne upon a charge of extortion, if any have existed in the mind of any one, were dispelled yesterday by his arrest at Calistoga by Deputy Sheriff W. M. Brady. A telegram was received at the Sheriff's office during the morning from Brady, announcing the arrest, and that Browne wanted to give bail at Napa. The telegram stated that Browne's physician said he is not able to come to Los Angeles yet, but that he will have to come if he

does not give bail.

The arrest of Browne removed the seal of secrecy which has been observed at the Sheriff's office in regard to the matter, and a TIMES reporter learned that the office has not been inactive in getting him. After the indictment was returned against him, Chief Crowley of San Francisco was telegraphed to arrest him, but he would not move in the matter unless the warrant for arrest was telegraphed to him. As this would cost some \$10, it was not done, and although Browne was in San Francisco, and Chief Crowley could have arrested him in 10 minutes, nothing

connection with other things, and telegraphed that Browne had gone to Calistoga. Deputy Brady went north with F. M. Garrett a few days ago, but part of his mission was to arrest Browne, who, in spite of his professed willingness to meet the charges against him, has very advoitly been maneuvering to keep away from Los Angeles.

It was also learned that the indict-

ment recites at some length the details of the crime with which Browne is charged. It charges him, as has before been intimated, with taking \$100 from O. W. Childs, Jr., to suppress an article prepared to be published in the Cactus, in which Mr. Childs was disgracefully mentioned in connection with "Dude" Williams of unsavory reputation. It further mentions the name of H. H. Boyce, (director-general of the Tribune) as being the person who negotiated the transaction between Mr. Childs and Carl Browne. In of the crime with which Browne is affair it is learned that he informed the Childs family that an article was to be published in the Cactus, and it is said that there was talk of \$800 being the figure necessary to secure its suppression. At any rate O. W. Childs, Jr., went to the Tribune office, where "Mr." Boyce called up Carl Browne by telephone, Mr. Childs standing close by and hearing his answers. "Mr." Boyce asked Browne how much it to the San Gabriel River just beyond Duarte.

there was an article upon the subject already in proof, which did not appear, and that that is the article for which the money was paid, it being a much set of the money was paid and the money was verer commentary upon the movements of "Dude" Williams in swell society of "Dude" Williams in swell society in Los Angeles than appeared in the Cactus. It is even asserted that Browne will swear that the \$100 paid by Mr. Childs remained within the itching palms of H. H. Boyce, and that he never got any of it. Should this information prove correct there is ground for the statement that the Grand Jury contemplates a fresh indictment against H. H. Boyce. [This is the same person who has been making himself offensively conspicuous through the Tribune newsspicuous through the Tribune news-paper, in the matter of the Federal appointments. He has constituted imself the especial champion and cusodian of Mr. Seamans, Mr. Ambrose

todian of Mr. Seamans, Mr. ambrose and Mr. Green.]

The proof of the suppressed article was part of the evidence which led to an indictment being found against Carl Browne, together with a full and graphic account of the telephonic arrangement between Boyce and Browne. It was thought at the time the indictment was returned that the article articles. ment was returned that the article in question brought in the names of some estimable young ladies residing in the city, but this is not the fact, and it is confined principally to the parading of the name of O. W. Childs, Jr., in unpleasant juxtaposition to that of the oily vagabond known variously as Williams, Blake and Sanguinetti.

TIE AND TRACK.

The Glut of Freight Removed-Per sonals and Notes.
The Southern Pacific and the Santa Fé depots are beginning to put on business looks once more. All of the roads have been repaired, and trains are running on time. Almost all the freight that was stacked up at the other end of the Cajon Pass, on the line of the Santa Fé route, has been brought in, and the track through the cafou is said to be better now than

The Southern Pacific engineers and The Southern Pacific engineers and laborers are hard at work on the new line through the Soledad Cañon, and when the road is complete it will be proof against storms and washouts.

The projectors have given out that they have capitalists in Chicago and other eastern cities who are willing to put \$3,000,000 into the enterprise as put \$3,000,000 into the enterprise as soon as the Council grants the franchise, and they declare that it will be the biggest thing that ever happened to Los Angeles. One of the Councilmen said to a TIMES reporter yesterday:

"This thing may be all right, but I don't like mystery. If it is all right, and the applicants for this franchise mean business, it is their duty to let the Council know just what they intend to do. "Mr." Boyce called up Carl Browne by and hearing his answers. "Mr." Boyce asked Browne how much it would take to suppress the article in question, and Browne replied, \$100. Childs agreed to the proposition, and Boyce called to Browne that the money had been paid.

Childs paid the money to H. H. Boyce, who claims that he turned it over to Browne, and acted in the matter merly is a triend of the Original Family, to help them avoid unpleasant notorlety.

Browne, it is understood, claims that he had no object in consummating such a transaction, for the reason that he did publish an article in which Childs's name was mentioned in connection with "Dude" Williams. From very good authority it is ascertained that there was an article upon the subject larged yi n proof, which did not appear into the San Gabriel River just beyond Duarte.

Several efforts have been made during the past two years to develop the water in this cafion, but for some reason the schemes have all fallen through. The water is of a fine quality, but it is said by those who know that it is not plentiful enough to apply a city as large as Los Angeles, appealally during large as Los Angeles, appealally during large as a los Angeles, to person and are not anxio to see any one succeed.

A representative of the syndicate called at the Times office yesterday and promised a satisfactory statement concerning the enterprise in a day or two.

If the scheme is carried out according to promise it will be a big thing for the San Gabriel River just beyond Duarte.

Full Report from the County Horticultural Commission - Efforts to Suppress the Red Scale -Bridge and Road Matters Under Consideration.

The Board of Supervisors met yesterday, and put in quite a busy day.

The Horticultural Commission presented the following monthly report:

To the Los Angeles County Board of Supervisors: We respectfully tender herewith the monthly report for December of the County Horticultural Commission.

The change, in the commission, caused by the retirement of Hiram Hamilton and the appointment of F. Edward Gray of Alhambra by your board to fill the vacancy, was consummated the 7th day of December by Mr. Gray assuming the office of commissioner. sented the following monthly report:

Some Mystery About the Source of Supply.

There has been considerable talk in some of the daily papers during the past few days regarding the Embody water franchise. Last Monday an application was made to the City Council for a franchise to lay pipes, sell water and carry on a general wholesale and retail water business in this city.

When several of the Councilmen wanted to know where the water is to come from the projectors of the "\$3,000,000-scheme," as the project is called, replied that they could not give the source of water supply for the reason that it might injure their prospects, or words to that effect. Some of the Councilmen expressed a willingness to vote for the franchise, while others declare that they will not vote for it until they know where the water.

Kercheval and Hamilton were appointed a committee to act with Mr. Heintz in obtaining signatures to a memorial to Congress, asking that increased duties be placed upon imported oranges, we desire to state in explanation that, although seeing the necessity of such a move, and doing all in our power as individuals to aid it, we found that the impression was prevalent that the Horticultural Commission had authorized an expenditure of money for the purpose, and iural Commission had authorized an expenditure of money for the purpose, and
this being beyond our jurisdiction we felt
cailed upon to resclid the resolution.
Eight inspectors have been employed during the month. Their reports and our own

alarm. There is great danger from the Santa Ana red scale that has made its appearance in orchards south of the city.

The result of the inspectors' labors has been gratifying, in so far that where they have pursued their work orchardists and owners of small places have been induced to disintect, spray, and, in Pasadena particularly, have grubbed out and burned infected trees that were a menace to their neighbors.

In order to guard against the introduction into the county of any new insect pests that are reputably reported to exist in adjoining counties, brought thereto from Florida, we have caused to be posted in all railroad stations and postoffices in the county notices forbidding the introduction of trees, flowers, shrubs, etc., infected with insect pests under penalty of the law provided for the protection of the horticultural interests.

While realizing the necessity of constant rigilance in keeping in check the many insect pests that threaten the welfare of the county's fruit industry, the commission for the protection of the horticultural interests.

A Saloon-keeper Protests.

Los Angeles, Jan. 10.—[To the Editor of The Times.] As a respectable saloon-keeper, I am opposed to the back-room card table. There are several saloons in the heart of this city where gambling is carried on nightly, and if I understand the Criminal Code the law is broken nightly in these places. It is hard on the respectable saloon-keepers, for, while we have to pay a fig license to keep open, we respect the law and will not permit gambling in our places. But the divekeepers have their customers at any cost, and it is a well-known fact that the people who spend money at night will go where they can gamble, and we are left out in the cold. The law is being the well-known fact that thops the Police Commissioners will make a thorough investigation at once.

in the Cutting Down of Expenses the Main Question Seems to Be, "Who'll Bell the Cat?"-The Sewer Question May Be Divided.

The members of the City Council held another secret caucus in the room of the Committee on Supplies, adjoining the Council chamber, yesterday afernoon, with closed doors, no reporters being admitted. President Frankenfield presided, and a majority of the members were present. The matter of retrenchment in the city's expenditures was further considered at some length, as was also the sewer proposi-

In the matter of retrenchment the Councilmen virtually agreed that something must be done, and that at once, the only question being where to commence, and where the necessary cuts could be made with the least inconvenience and the least objection. As is usual, the police department again came up first, and there was a somewhat protracted debate as to whether it was better to cut down the number of men or the wages. The members appeared to be about evenly divided on the question. Those who favored reducing the number of policemen argued that it was better for 60 men to get fair living wages than for 90 to be kept on starvation pay; they further urgued that this measure would receive the sauction of the Mayor, whereas, on the other hand, if wages were reduced, the Mayor would certainly veto the ordinance, and thereby its object would be defeated, as it would be impossible to get enough votes to pass it over the veto. Those who favored commence, and where the necessary would be defeated, as it would be impossible to get enough votes to pass it over the veto. Those who favored cutting down the wages insisted that half a loaf was better than no bread, and that, in the present dull state of things, if the matter was left to the men themselves they, would stand the reduction rather than stand the chances of being removed, as it was impossible to tell where the lightning would strike, in case an order for a would strike, in case an order for a reduction of the force to 60 men was

taken up, and in every case the same arguments were used, so that when the meeting adjourned the members were no nearer a definite conclusion than they were on Thursday, as none of them wished to take the initiative

of them wished to take the initiative step and break the ice by fathering any proposition in open Council.

In regard to the deficit, there was considerable diversity of opinion, the most conservative placing it at \$50,000 at the lowest, while others insisted that at the present rate it would be double that amount, and that after June everything would have to be done or credit, as the money would be exon credit, as the money would be exhausted by that time. All agreed that a mistake had been made in putting the limit at \$1, which was entirely too low, it was said, for a growing city, the expenses of which had been largely increased under the new charter. It was conceded that \$1.25 would cover everything, but how to would cover everything, but how to get that extra amount was the prob-lem which they had to confront, and each and every man insisted that he was equal to the emergency until it came down to a definite proposition, when a silence ensued that was op-pressive in its stillness.

The discussion of the sewer question

The discussion of the sewer question showed that there was a wide divergence of views on the subject. One or two of the members favored letting the matter drop where it is, saying they were convinced that the bonds could not pass, and they were therefore opposed to spending any more money for election purposes, when nothing is to be gained by it. It was argued that the plan submitted by the Board of Engineers is any extention. gineers is, substantially, the same as that which was rejected by the taxpay-ers, with the exception that it cost more money, and there is nothing to or the fruit interest. Respectfully,

A. F. Kercheval, President.

F. Edwald Gray, Secretary.

They were willing to segregate the storm-drains, and have two elections, one for the drains and the other for the

sewer system, both interior and outfall, and stand or fall on this proposition, clauming that the sewers could not be separated.

NOT A STRIKE,

There was a rumor flying about the streets yesterday to the effect that the conductors on the Los Angeles Cable Company's lines were about to go out on a strike. The rumor grew out of a meeting held on New High street, near Temple, at a late hour night before last. It seems that the boys have made

A FALLING OFF IN ATTEND ANCE AT THE TRACK,

But a Good Day's Racing Neverthe less-"The Talent" Left in the Second Race-Winners of the "Tom Daly."

The cold weather yesterday had a depressing effect on the attendance at races, there being a notable falling off in the crowd present to witness the sport. The races were all well contested, free from jobs, and ought to have been better patronized. Messrs. Clifton Bell, H. McGregor and A. W. Barrett officiated as judges, and Messrs. Nick Covarrubias and Dave Sheehan performed the arduous duties of starters admirably. The following a summary of the events:

Promptly at 2:30 the horses were called up for the first race, Gambo being withdrawn. Just before the race, a protest was entered with the judges claiming that Hazlett on Rondo and Newhall on Painkiller would not ride their horses to win, and the judges placed West on Rondo and Brown on Painkiller. This was unfortunate for the backers of Rondo, as the suspicion against the riders was unfounded, and West could not manage Rondo. After some little delay at the post the horses got away to a fair start, with Sunday in the lead, Painkiller second, and the others close up. They raced into the

some little delay at the post the horses got away to a fair start, with Sunday in the lead, Painkiller second, and the others close up. They raced into the stretch in this order, when Rondo grew sulky and quit, and Sunday wandered under the wire an easy winner by two lengths, Painkiller second, and Rondo third. The time, I:04, was very good, considering the heavy track. Had Hazlett ridden Rondo he would have run a better race, but West could not get any speed out of the animal.

The next race was an upset for the talent, and the short-enders were all made happy by an unexpected winning. The talent, McGinty-like, fell into the consommé on what they considered the sure thing of the day. Seven horses faced the starter's flag, and, as usual, that unruly brute, Welcome, caused a half a dozen false starts, which proved unfortunate for Oro, as they wore him out, and the top weight he carried told severely on him, although he ran a game race. At the fall of the flag Rosemead jumped to the front elevely followed by Othello, and the top when Gladiator joined them, the favorite, Oro, being about two lengths behind, evidently running a waiting race. Entering the stretch, Oro closed up on the leaders, and Rosemead fell back, beaten. Gladiator here developed an unexpected burst of speed, and came rushing down the stretch. Hazlett plied the whip on Oro, but the horse hadn't any speed left, and Gladiator was driven home, after a slashing finish, wunning by a head from Othello, Oro a poor third. A mighty shout went up from the shortenders, and a came rush was made to the pool box to cash in the winning tickets.

In the next race the talent redeemed themselves. The horses were sent off to good start with Admin the head

In the next race the talent redeemed themselves. The horses were sent off to a good start, with Adam in the lead. It was the intention to let Adam set the pace and kill Daly, when Brady would come up and win; but Hill, on Jaly, wasn't to be caught napping, and baly, wash to because happing, and trailed along serencily behind Adam until the stretch was reached, when Hill gave him his head and he flew past the others, winning easily by a length from Adam.

Today's entries are as follows: First Race.—Seven-eighths of a mile: Four Aces (119 pounds). Dan Murphy (119 pounds), Rosemead (99 pounds), Atlanta (99 pounds), Othello (119 pounds), Tom Daly (124 pounds), Fannie F. (117 pounds), Louisa M. (114 pounds), Welcome (117 pounds)

SCIENTIFIC.

A Hurried Glance at Mother Earth.

The parlor of Unity Church was filled to overflowing last evening to listen to Prof. Dickenson's lecture on "A Hurried Glance at Mother Earth."

After a few introductory remarks relative to the various benefits of scientific study, the speaker gave a rapid sketch of the nebulæ theory in connection with the later views of Norman Lockyer, and then described and relations to itself, its motions, dimensions, internal condition, and the methods by which men learned their facts. The weight of the earth is six, with 21 ciphers, tons. The weight of atmosphere five, with 15 ciphers, tons. He rapidly sketched the nebulæ theory, tracing it from the diffused fire mist slowly rotating and radiating its heat into space, through successive physical into space, through successive physical and chemical changes to the condition of a molten globe, on which was formed the crust, which has since become the theater of the varied activities known

The presentation of the scenery, sublime and stupendous beyond imagination, attending the liquefaction and
solidification of the materials in the
primeval atmosphere, the rain upon
the heated earth of molten metals,
various acids and other chemical compounds, was interestingly told.

The play of different forces on the

sea and air, for example, the influence

of electricity, magnetic currents, etc., were described.

The idea that the earth in the totality of its history, in all its materials and forces in their varied activities and interplay, is a unity, the complex but complete life of which the present phenomenon formed but a passing phase, was insisted on. The doctrine of Prof. Le Conte and others that the earth's crust is a thin sheet floating on a comparatively thin stratum of molten matter and surrounds the golid interior, was given.

The lecture was listened to with the greatest attention, and the speaker's closing remarks on the pleasure and advantages derived from the study of Nature's works and mysteries were greeted with hearty applause. The subject of next Friday evening's lecture will be: "A Clear Look at the ture will be: "A Closer Look at the Earth's Crust."

WHEBEAS, the railroad known as the Cahuenga Valley dummy railroad has been condemned by the courts of the city as a nuisance on the streets, and as the same is a nuisance and dangerous to all persons traveling in vehicles on Belmont avenue and Temple streets;
Resolved, that we earnestly petition our City Council to order the same taken up at once.

Resolved, that we earnestly petition our City Council to order the same taken up at once.

The matter of fire protection was taken up, and there was considerable discussion about it. In the discussion it was developed that the mains are inadequate for fire protection.

Mr. Merriam moved that the Crown Hills Board of Trade is opposed to the Council granting further franchises to private corporations for furnishing water to the city, believing that the city should own its own waterworks. It was referred to the Committee on Water and Mr. Merriam, for investigation, to report at the next meeting. The board is circulating the following petition to the Council:

We, the undersizued, owners of property on First street, Lakeshore avenue, Second street and within the district to be assessed, hereby petition your honorable body:

First—That you change and reëstablish the grade of First street, from the west city line to Lucas avenue, and of Lakeshore avenue and Second street, from Hill street to Fort street, so that no grade on said streets shall exceed a rise of four feet in 100 feet; and.

Second—That you widen Second street from Figueroa street to Bunker Hill avenue and from east line of Olive to west line of Hill street to 80 feet; and

Third—That you grade and improve said First street, Lakeshore avenue and Second street from Figueroa street to Bunker Hill avenue and Fourth—That you grade and improve said First street, Lakeshore avenue and Second street to 80 feet; and

Third—That you pass the necessary ordinances for constructing a tunnel between Hope and Olive streets and fix the district to be assessed for the psyment of the improvements asked for.

Not less than 30,000 feet frontage out of 140,000 feet has been signed during the two days the petitions have been circulated. One will be left at the California Bank and Hunt & Mendenhall's, at the end of Second-street road, for signatures.

A SCENE

Caused by the Mistake of a Usher. Yesterday's Express makes public a little scene in the Los Angeles Theater the other night, which at the time caused considerable mortification in several quarters. The Express article, which fails to give the names of the parties concerned, is headed, "An Usher's Blunder," and tells how Mr. J. C. Robinson, Mrs. Robinson and a lady friend were seated in a loge at the Los Angeles Theater Monday night, when Mrs. H. C. Wyatt of the Grand Opera-house appeared on the scene armed with a coupon for the loge occupied by the Robinson party. The Express goes on to tell how Mrs. Wyatt stood looking on while an usher ejected the Robinson party, and then, with a saucy toss of the head, sailed into the loge, as much as to say, "I got 'em out, didn't I?" The Robinson party had been put into the wrong loge by another usher, but the usher who accompanied Mrs. Wyatt to the loge occupied by the Robinson party refused to rectify the mistake made by his brother usher, and as soon as the curtain went down on the first act Mr. Robinson and party left the theater. He did not complain to the management, but he was considerably put out over the affair, for nearly everybody in the audience saw that the situation was embarrassing. the Los Angeles Theater Monday

HOW THE FAKE ORGAN FAKES ITS DISPATCHES.

Another glaring instance of the fake method by which the moribund Trombone pads out its meager telegraph report was furnished by that self-styled newspaper yesterday. On its first page appeared an asserted dispatch, dated Washington, January 9th. Over this dispatch was a big five-line head, the two first lines of which read: "The Coming Début; Californians Will Greet Their Protégé." In the body of the asserted dispatch were the fol-

ary 9th:

Miss Lettita Aldrich, a niece of Senator Stewart of Nevada, made her début in the National Theater this afternoon in the presence of a large and fashionable audience in Miss M. E. Seaweil's play, Maid Marian. Miss Aldrich made a good impression before a critical assemblage, and was called out several times to receive a number of handsome fioral tributes. The play, though short, is clever and an admirable take-off on New York society. Miss Seawell, the well-known authoress, received many congratuations at the enthusiastic reception of her first dramatic effort.

Furthermore, this notorious boodle organ has the effrontery to assert that man who dares to take part in this protest "puts himself below the level of a ward politician." How do reputable citizens enjoy being referred to in this manner, by the organ of an indicted blackmailer?

THE "special correspondent" of the Trombone at Washington, we are inormed by that sheet, is instructed to 'telegraph the names'' of any signers of protests against the appointment of John W. Green as postmaster, and that the names will be published by the Trombone in full. How do free American citizens like this impudent attempt on the part of the private organ of an indicted blackmailer to frighten them from exercising their sacred right of petition and protest?

IT may be, as the venal and vulner able Trombone asserts, that "Senator Stanford, Gen. Vandever and the entire Republican delegation in Congress have certified to the President that master." From the Times-Mirror Company he received a response stating that the amendment is perfectly satisfactory to it, and doubtless justified from the union's standpoint; and asking the secretary, or any member of the union, to "point out any week in the history of the com-

pany when it has not paid its employes in full and on time."

To this letter the secretary, George H. Kunz, replied yesterday, stating, in effect, that the notice had been sent through no dereliction on the part of the Times-Mirror Company in the matter of a regular pay-day; that to his personal knowledge, extending over a period of knowledge, extending over a period of nearly three years, employes' wages have been paid in full every week by this office; that it is a common remark among Los Angeles printers who have been in the employ of the Times-Mirror Company for years, that it has always been the boast of the management, from the birth of This Times, that it has never passed a pay-day without meeting all its obligations to its printers in full; and that such is the printers in full; and that such is the

By Telegraph to The Times. CHICAGO, Jan. 10.—[By the Associated Press.] Late this afternoon Attorneys Wing, Donahoe and Forrest filed a motion for a new trial in the cases of Coughlin, the murder of Dr. Cronin.

The motion assigns 39 causes of error in the rulings of Judge McConnell during the trial of the case. These grounds of a leged error embrace every point contested by the attorneys for the defense, and range from the objection to the Court's overruling the motion to quash the indictments up to the assertion that the defense has since the trial discovered new evidence which en-

hostility toward Coughlin, Burke and O'Sullivan, and not fit to act for the prosecution. Attorney Longenecker's opening address to the jury is cited as an error, being improper and illegal. It is oharged that improper remarks of counsel for the State excited the passions and prejudices of the jurors against the defendants. The allowing of the prosecution to introduce as evidence the clothing, instruments, har and all matter of material evidence in the case was error. The introduction of Cronin's knives after the State had closed the case is also cited. Objection is made to the instructions given by Judge McConnell. The verdict is pronounced contrary to law and not justified by the evidence, and finally it is said: "The defendants have discovered evidence which entitled them to a new trial."

In white districts has broken out afresh. This question has been up two or three times, and the courts decided once that colored children were entitled under the orwholes as whites. Strong opposition developed, however, and as the great mass of colored people in Upper Alton live in one district a school building was set apart for their use. the School Board redistricting the town to meet the emergency. This, however, did meet the emergency. This, nowever, did not long satisfy the negroes, who have been threatening that they would force their way into the High School building, and with that end in view they recently instituted a mandamus proceeding to compel the board to redistrict the town on a "more equable basis."

mand, and the City Marshal, on searching several of the negroes, found revolvers and other weapons in their possession. Many of the whites were also found armed, but hostilities were prevented by the judicious action of the authorities.

At a meeting this afternoon the School Board resolved to dismiss the colored people in the colored district and substitute a mixed school in its place. Action was also taken on the establishment of boundary-lines which will admit some of the blacks to the High School building. This is a victory for the blacks, and a good deal of bitterness is expressed. The whites threaten to desert the schools and default on their school taxes.

Its walls are hung with rare engravings and beautiful etchings, and just opposite the den shows out an autographic receipt of Alexander Pope for the two guineas which he received for his translation of the Iliad. This is no index of the prices which Missis Field will pay for literary matter. Just now she is running her journal on a business basis, and her first edition. a business basis, and her first edition, in addition to the salaries of her editorial force, cost her but a dollar and a half. She is going to make it pay if hustling will do it. She is a hustler, too, and in the forties she has as much energy and youth as when she starped too, and in the forties she has as much energy and youth as when she stepped out of her teens into her twenties as a correspondent of the Philadelphia Press and the New York Tribune in London and Paris. rights fortifications, with her guns pointed toward Congress and a lighted fuse in her hand. She looks not a day older than she did 10 years ago. Her hair has grown no whiter, and there are no more wrinkles in her face. She is in good nealth and spirits. During the past summer she stumped the Western States in favor of women's rights, and she tells me the strength of her party in Congress is growing.

Western States in favor of women's rights, and she tells me the strength of her party in Congress is growing.

With her I adjourned to another parlor and called upon Phæbe Couzins. Miss Phæbe has not been well for two years, but, though the gray strands are creeping into her black hair, she is as bright as a dollar, and she still has snough iron in her blood to make the life of the present Comptroller of the Treasury decidedly miserable. The Comptroller's office seems to be run on the principle of how not to do it. Miss Phæbe's complaint relates to about \$1300 of legal marshal's fees which some of the clerical whippersnappers have disallowed, flotwithstanding the fact that they have been sworn to by half a dozen clerks of courts and District Attorneys away out in Missouri. Miss Couzins has been here for several weeks trying to right her claims, and she seems as far from her end as she was when she came. She s, you know, a lawyer herself, and is a graduate of a law college. She made her own argument before the Comptroller and proved her case, but she says the ins and outs of the Government are such that she does not know but that she will have to go to Congress in order to secure the rights which the law has allowed her.

Olive Logan is doing literary work here this winter, though she has not decided how long she will stay. She has written a Washington novel of 40,000 words, and I am told that the story has a good plot and is full of interest. Mrs. John A. Logan is doing remarkably well with her new magazine. She is living at her home in Calumet Place, and she has her regular hours of editorial work.

CLERGYMEN'S VIEWS

ON THE MATTER OF THE LI-BRARY BOND ELECTION.

The Majority Favor Issuing the

As the majority of citizens in Pasadena are well aware, the long-expected library-bond election will be held next in yesterday afternoon and howled and Tuesday. The subject has been districal disturbance, lifted the snow borough has already decided which

town to hear what they had to say on the matter, and the brief and concise exercise such a controlling influence in heated with steam. The management

a community, as given below, cannot but preve of interest to every man who has the welfare of the town at heart.

Rev. H. T. Staats, pastor of the North Pasadena Congregational Chuurch, said: "I heartily favor voting the library bonds. It will be false economy for the city to let slip such as economy for the city to let slip such an opportunity to secure, at small cost, an institution that cannot but be productive of much good to the city,

Rev. D. D. Hill of the First Congregational Church announced himself as opposed to the proposed issuing of bonds, for the following reasons:

"While the library is a good thing in itself for a city to own, I am decidedly against any further increase at present of the borough's indebtedness for any purpose. Our taxes are excribitant, and the time has come to curtail expenses in every possible way. The annual expenses of the city ought to be reduced from \$80,000 to \$20,000. A library for a city is very desirable when that city can afford to pay for it, which does not apply to Pasadens, for the present at arate is a heavy drain on the purses of the majority of our citzens, who cannot afford to pay a cent more for a library or anything else. Let the town economize, instead of expending more money for any object, no matter how desirable."

The views of Rev. E. L. Conger of the Universalist Church were extended the conditions of the proposed issuing of the odo this or that? I say, do you love to do this or that? I say, do you love the two do this or that? I say, do you love the two do this or that? I say, do you love the two do this or that? I say, do you love the two do this or that? desirable."

The views of Rev. E. L. Conger of the Universalist Church were expressed as follows: "I have for a long time tavored the purchase of the library by the city, and suggested the issuing of bonds for that purpose long before the plan was considered feasible by many of our townsmen. The extended period provided by the bonds for payment will make the annual increase of taxation hardly appreciable, and the good accruing from such a purchase will be of financial benefit to the city. It will be false economy to vote against the issuing of the control of the control of the city. It will be false economy to vote against the issuing of the control of the city. It will be false economy to vote against the issuing of the control of the city. It will be false economy to vote against the issuing of the control of the city. There are camphor tree in this State that have now attained the height of twenty feet or more—clean trees, with eautiful foliage, the leaves when crus the rains in the spring-will go ahead the ripening of the citrus fruits, the orange, lemon and the lime, which suggests the midwinter festival; while in and others, suggesting a summer or economy to vote against the issuing of bonds."

Rev. Bresee of the Methodist Church

Rev. Bresee of the Methodist Church said: "I am not sufficiently well acquainted with the subject in question to venture a decided opinion, but on general principles I would say the purchase of the library by the plan suggested would result in practical and financial good to the city."

The pastor of the Presbyterian Church, Rev. William Ormiston, expressed himself as follows: "While I have not looked up the matter of the library question in Pasadens, I would oppose any further expenditure of the city's funds for any object. The more the debt is increased the less life there will be in the place. I am opposed to debt, personal and municipal, and until Pasadena can afford an increase in taxation, which she decidedly can not at the present time, I am against buying a library, which per se is a grand thing." Several other of the ministers were inquired after by the Transs man, but could not be found. It is understood that the majority of them favor issuing the bonds, the bonds.

A good one is told on an elderly gentleman who recently visited his daughter, who is wintering in Pasadena. Afflicted with stomachic troubles, he went into his daughter's room and took from a stand a large dose of what he thought was pepsin. The taste was not familiar, and inquiry proved that he ladd awallowed a lot of tooth powder. No evil results followed.

One of the most surprising features of the modern business world is the excessive use of cotton seed, formerly considered worthless. Over 800,000 tons of these seeds are now pressed for their oil, from 36 to 40 pounds being obtained from each ton. The consumption of cotton-seed oil is increusing both in this country and in Europe, and new uses of the oil are constantly being discovered.
